Media Bureau

PETITION FOR RULE MAKING

Pursuant to 47 C.F.R. 1.401, Charles Crawford respectfully petitions the FCC to institute a Rule Making proceeding to amend the FM Table of Allotments to add Channel 242A at Centrahoma, Oklahoma.

DISCUSSION

Petitioner respectfully submits that the public interest would be served by allocating Channel 242A to Centrahoma, Oklahoma as that community's first local FM service. Centrahoma, Oklahoma is an incorporated community with a population of 110 people.¹ Centrahoma has its own mayor, Shirley Morgan, its own post office, volunteer fire department, community center and several local churches.

¹ U S Census 2000

Centrahoma is a community that is certainly deserving of a local FM service. The proposed channel 242A will provide additional diversity and an outlet for local self-expression to Centrahoma residents and therefore is in the public interest.

In order for Channel 242A to be allotted at Centrahoma, Oklahoma, Station KXXY Channel 241C at Oklahoma City, Oklahoma must be reclassified to a C0. (See, Attachment A, Request to Reclassify statement).

The proposed changes are as follows:

	<u>Present</u>	<u>Proposed</u>
Centrahoma, OK	----	242A
Oklahoma City, OK	241C	241C0

Attached hereto is a channel study confirming that Channel 242A can be allocated to Centrahoma, Oklahoma, consistent with the FCC's FM separation rules. See revision of FM Assignment Policies and Procedures, 90 FCC 2d 88 (1992). (See, Attachment B) Please note that a prior filed Channel 242A at Centrahoma was dismissed per FCC letter on September 15, 2003. (See, Attachment C)

Reference coordinates are:

34 51 00 N
96 15 00 W

Should this petition be granted and Channel 242A be allotted to Centrahoma, Oklahoma, Petitioner will apply for

Channel 242A at Centrahoma and after it is authorized, will promptly construct the new facility.

The factual information provided in this Petition for Rule Making is correct and true to the best of my knowledge.

Respectfully submitted,

A handwritten signature in black ink, appearing to be 'Charles Crawford', written over a horizontal line.

Petition for Rule Making
FM Channel 242A
Centrahoma, Oklahoma
October 6, 2003

Attachment A

Request to Reclassify
Station KXXY(FM), Oklahoma City, Oklahoma
Pursuant to MM Docket 98-93

Radio Station KXXY(FM), Oklahoma City, Oklahoma is licensed to Clear Channel Broadcasting Licenses, Inc , 2625 South Memorial Drive, Suite A, Tulsa, Oklahoma 74129, (Facility ID 58389), FCC File No. BLH 20000105AAO. The facility operates with a power of 100 kilowatts with center of radiation 372 meters height above average terrain. The above captioned Docket 98-93 provides the mechanism to automatically downgrade a Class C facility to Class C0 when a demand is made for the spectrum, as is the case here. Charles Crawford respectfully requests that the license of Radio Station KXXY(FM) be modified to specify operation on FM Channel 241C0 instead of on FM Channel 241C in accordance with the above Docket which provides for such downgrades when a demand for the unused spectrum is made, as is the case here.

Charles Crawford, the proponent of Channel 242A Centrahoma, Oklahoma, in accordance with the above Docket, formally requests that the Commission reclassify Radio Station KXXY(FM) as a Class C0 facility. Charles Crawford certifies that no alternative channel is available for the service he proposes at Centrahoma, Oklahoma as is proposed in the Petition for Rule Making. A copy of this Petition for Rule Making is being served on Clear Channel Broadcasting Licenses, Inc. as is required in the above Docket.

A handwritten signature in black ink, appearing to read 'Charles Crawford', written over a horizontal line.

Attachment C

Federal Communications Commission
Washington, D.C. 20554

September 15, 2003

Charles Crawford
4553 Bordeaux Avenue
Dallas, Texas 75205

Dear Mr. Crawford:

This is in response to petitions for rule making that you filed requesting changes to the FM Table of Allotments. You have requested the allotment of Channel 241A at Bokchito, Oklahoma. To accommodate the allotment at Bokchito, you request the substitution of Channel 263A for vacant Channel 241A at Clayton, Oklahoma, and the reclassification of Station KXXY, Oklahoma City, Oklahoma, from Channel 241C to Channel 241C0. In a separate petition you request the allotment of Channel 242A at Centrahoma, Oklahoma.

We have reviewed your proposals and find that they are unacceptable for consideration as filed. The petitions are mutually exclusive with each other. We do not accept mutually exclusive proposals that are filed by the same petitioner. An initial engineering review of the petitions reveals that the proposals are in conflict with each other in that they do not meet the minimum distance separation requirements of Section 73.207 of the Commission's Rules. Our analysis indicates that the site you specified for the allotment of Channel 241A at Bokchito (33-59-01 and 96-08-07) is short spaced to the petition you filed requesting the allotment of Channel 242A at Centrahoma (34-34-44 and 06-10-40).

Based on the above, we are returning the petitions for Bokchito, Oklahoma, Channel 241A and Centrahoma, Oklahoma, Channel 242A. You may resubmit the petitions, provided they are in compliance with the Commission's Rules.

Sincerely,

A handwritten signature in dark ink, appearing to read "John A. Karousos", is written over a large, stylized oval shape.

John A. Karousos
Assistant Chief, Audio Division
